PLANIRAMO BUDUĆNOST, DIZAJNIRAMO DANAS

UZ RAZVOJ TEHNOLOGIJE,
UZ ODRŽIVOST,
UZ POŠTOVANJE PREMA PRIRODI,
ZA BUDUĆNOST...

WE PLAN THE FUTURE, WE DESIGN TODAY

WITH ADVANCING TECHNOLOGY,
WITH SUSTAINABILITY,
WITH RESPECT FOR NATURE,
FOR THE FUTURE...

Dizajniramo danas, planiramo budućnost.

PLANTERRA Arhitektura je pejzažno-arhitektonska firma osnovana u Turskoj, koja svoje dugogodišnje iskustvo prenosi na međunarodno tržište.

Naše putovanje, započeto 1994. godine, razvilo se u snažnu i integrisanu strukturu kroz proizvodnju biljaka, projektovanje i realizaciju projekata. Aktivne operacije u Turskoj predstavljaju našu tehničku osnovu i proizvodnu snagu.

Naša kancelarija u Srbiji deo je vizije širenja ovog znanja na međunarodne projekte. PLANTERRA pruža održiva, funkcionalna i specifična rešenja prilagođena svakom prostoru.

Naš cilj je stvaranje dugotrajnih prostora koji spajaju estetiku, funkcionalnost i komfor, unapređujući kvalitet života.

We design today, we plan the future.

PLANTERRA Architecture is a landscape architecture firm founded in Turkey, carrying its years of experience into the international arena.

Our journey, which began in 1994, has evolved into a strong and integrated structure through plant production, project design, and implementation services. Our ongoing operations in Turkey form the technical foundation and production strength of our company.

Our Serbia branch represents a key step in expanding this expertise into international projects. PLANTERRA delivers sustainable, functional, and site-specific landscape solutions across various scales.

Our goal is to create lasting spaces that combine aesthetics, functionality, and comfort while enhancing quality of life.

THE KENSINGTON HEIGHTS

Our project, which won the "Best 5 Star Luxury Resort 2022 and Best Design Hotel 2022" awards at the International Travel Awards, is the first phase of the project work that includes the renovation of the structural and plant landscape areas of Rixos Premium Bodrum Hotel, located on the Milas-Bodrum highway in Torba Bay. With the renovation of the existing hotel and accommodation structures, all the open space circulations and gardens in the hotel were designed. Due to the very steep slope and dense circulation in the area, floating stairs on the green ground to reduce the hard ground effect and green ribs that increase the green ground in pedestrian circulations were designed. In the context of inclusive design, the entire circulation has been re-solved so that disabled, children and elderly individuals can reach the accommodation units with their buggy and other vehicles. A design concept that integrates more with the natural environment in which it is located, aims to increase the green area ratio and to experience the whole hotel open space operation in a richer way has been implemented

ZAŠTO PLANTERRA?

To je tim za dizajn i realizaciju koji razume potrebe klijenata i razvija projektno specifična rešenja. Integrisano upravlja pejzažnim dizajnom, proizvodnjom biljaka i urbanog mobilijara u jedinstvenom sistemu. Ceo proces, od ideje do realizacije, vodi pod jednim upravljanjem. Sa iskustvom stečenim kroz hiljade projekata, održava visok standard kvaliteta. Stvara održive, estetske i dugotrajne životne prostore.

WHY PLANTERRA?

It is a design and implementation team that understands client needs and develops project-specific solutions. It integrates landscape design, plant production, and urban furniture manufacturing within a single system. It manages the entire process from concept to implementation under one coordination. With experience gained from thousands of projects, it maintains a high-quality standard. It creates sustainable, aesthetic, and long-lasting living environments
